Disclaimer: All information provided in this official EirGrid site is provided for information purposes only and does not constitute a legal contract between EirGrid and any person or entity unless otherwise specified. Information on this official EirGrid web site is subject to change without prior notice. Although every reasonable effort is made to present current and accurate information, EirGrid makes no guarantees of any kind.

The information below is published in accordance with CRU Decision on the Publication of Additional Information on Generation Connection Applications ref CER/17/112.

Where the Received Complete Date entry is blank it means that an application package, including associated initial fee, has been received by EirGrid but a Received Complete Date is yet to be confirmed.

The meaning of each status for an application is as follows:
• "Application Checking" – Application and initial fee received – being assessed for completeness or awaiting balance of fees to commence processing.
• "Processing" – refers to any project scheduled to receive a connection offer.
• "On Hold" – projects being processed under CER/09/099 and have yet to confirm how they wish for their application to be processed on foot of direction issued by the CRU on the 02nd November 2017 (CRU/17/309A); or projects being processed under CER/09/099 that have decided to await new ECP rules before making a decision; or projects that have applied but are subject to ECP rules to be determined by CRU per consultation CRU/17/309.
• "Live" – EirGrid has issued a connection offer and it is with the applicant for acceptance.

The station designation of "Unassigned" is used for applications where the connecting transmission station is yet to be assigned for study purposes.
The station designation of "New Station" refers to applications where an assessment has been undertaken and a new transmission station is likely to be required.
