▼All-Island Wind Generation and Forecast Wind ▼

▼Average Daily Wind Penetration▼

▼Fuel Mix 15 minute Time-Series▼

▼General Information / Notes▼

****Demand Data is based on Export plus Generation House Load***
System Data is based on 15-minute SCADA data
Installed Wind MW based on SCADA and Registered data
The maximum wind generation in the different jurisdictions does not necessarily occur at the same time
SNSP - System Non-Synchronous Penetration is the sum of Wind generation and HVDC imports as a percentage of total generation
While every effort has been made in the compilation of this report to ensure that the information herein is correct we cannot accept any responsibility or liability for any damage howsoever caused by reliance on the information presented here.
