Demonstration Project Initial Assessment Form

http://www.eirgrid.com/operations/demonstrationprojects/

For more information about EirGrid Demonstration projects email: demos@eirgrid.com

For organisations that do not yet have a product that is ready for demonstration, the Smart Grid Innovation Hub may be a more suitable initiative

Please complete all sections of the application below. If your application is for a Horizon 2020 project please also complete the Horizon 2020 section of the form.

1.1 What is the Project title?

1.2 What is your company name?

1.3 Who is the project manager? Please provide contact details.

1.4 Please provide a brief background of your company.

1.5 What power system area does this project mainly concern? E.g. energy storage, reactive power compensation etc.

1.6 Please provide a description of the project. (Max. 250 words)

1.7 What is the current project status? (Concept, in planning, in progress etc.)

1.8 How do you envisage the project will increase the sustainability, economic competitiveness or energy security of the Transmission System? (Max. 250 words)

1.9 What is the project timeline? (Estimated)

1.10 What are the key requirements to progress the project to completion?

Only complete this section if your application is for a Horizon 2020 call

2.0 Horizon 2020 call

http://ec.europa.eu/programmes/horizon2020/

2.01 Horizon 2020 Title	
2.02 Horizon 2020 Call Reference (e.g. LCE6 – Transmission grid & wholesale market)	
2.03 Call Closing Date	
2.04 Proposed H2020 project timelines	
2.05 Describe how your project meets the specific challenges outlined for the identified H2020 call	Desc
2.06 Project Partners (include country of origin , proposed role and status of commitment for each	
2.07 Specific role envisaged for EirGrid in the project	
2.08 Resource commitment requested from EirGrid and duration of commitment	

Partner	Country	Proposed Role	(Committed/In Progress/Not yet approached)

Notes

EirGrid and SONI will not be directly funding any demonstration project.
EirGrid and SONI will provide support in the form of expertise and knowledge sharing with successful demonstration projects.
This is an initial assessment form and will be used by the TSOs to decide if they are interested in pursuing the project further.
If you have any further information that you feel is informative or necessary to further describe your project please include it as an appendix in this document.
